Category	Protected
Authorization	Student/Doctor Token

Request Body / Form Data:

No Body

Example Response:

```
{"message": "Logged out successfully"}
```

7. GET /courses

Category	Protected
Authorization	Student/Doctor Token

Request Body / Form Data:

No Body

Example Response:

```
[{"id": 1, "name": "AI"}]
```

8. GET /my-qr

Category	Protected
Authorization	Student Token

Request Body / Form Data:

No Body

Example Response:

```
{"qr_url":"https://..."}
```

9. POST /courses

Category	Doctor
Authorization	Doctor Token

Request Body / Form Data:

```
{  "name": "AI",  "code": "CS3121",  "semester": "Second Term",  "level": 4}
```

Example Response:

```
{"message": "Course created successfully"}
```

10. POST /sessions

Category	Doctor
Authorization	Doctor Token

Request Body / Form Data:

```
{  "course_id": 1}
```

Example Response:

```
{"message": "Session created successfully"}
```

11. POST /sessions/{id}/close

Category	Doctor
Authorization	Doctor Token

Request Body / Form Data:

No Body

Example Response:

```
{"message": "Session closed successfully"}
```

12. GET /sessions/{id}/report

Category	Doctor
Authorization	Doctor Token

Request Body / Form Data:

No Body

Example Response:

```
[{"full_name": "Ahmed", "status": "Present"}]
```

13. GET /courses/{id}/report

Category	Doctor
Authorization	Doctor Token

Request Body / Form Data:

No Body

Example Response:

```
{"course_name": "AI"}
```

14. GET /courses/{id}/export

Category	Doctor
Authorization	Doctor Token

Request Body / Form Data:

No Body

Example Response:

Excel File Download

15. GET /sessions/{id}/export

Category	Doctor
Authorization	Doctor Token

Request Body / Form Data:

No Body

Example Response:

Excel File Download

16. POST /face/verify

Category	Doctor
Authorization	Doctor Token

Request Body / Form Data:

```
form-data:  
image => FILE
```

Example Response:

```
{"matched": true}
```

17. POST /face/verify-and-mark

Category	Doctor
Authorization	Doctor Token

Request Body / Form Data:

```
form-data:
image => FILE
session_id => 1
```

Example Response:

```
{"message": "Attendance marked successfully by face"}
```

18. POST /qr/scan

Category	Doctor
Authorization	Doctor Token

Request Body / Form Data:

```
{
  "qr_data": "{student_qr_json}",
  "session_id": 1
}
```

Example Response:

```
{"message": "Attendance marked successfully by QR"}
```

19. POST /face/register

Category	Student
Authorization	Student Token

Request Body / Form Data:

```
form-data:
image => FILE
```

Example Response:

```
{"message": "Face registered successfully"}
```

20. GET /my-courses

Category	Student
Authorization	Student Token

Request Body / Form Data:

No Body

Example Response:

```
[{"id": 1, "name": "AI"}]
```

21. GET /available-courses

Category	Student
----------	---------

Authorization	Student Token
---------------	---------------

Request Body / Form Data:

No Body

Example Response:

```
[{"id":2,"name":"Networks"}]
```

22. POST /enroll

Category	Student
Authorization	Student Token

Request Body / Form Data:

```
{
  "course_id":1
}
```

Example Response:

```
{"message":"Enrolled successfully"}
```

23. POST /attendance

Category	Student
Authorization	Student Token

Request Body / Form Data:

```
{
  "user_id":6,
  "session_id":1,
  "method":"manual"
}
```

Example Response:

```
{"message":"Attendance marked successfully"}
```

24. GET /students/{id}/report

Category	Student
Authorization	Student Token

Request Body / Form Data:

No Body

Example Response:

```
{"attendance_percentage":"100%"}
```

25. GET /my-report

Category	Student
Authorization	Student Token

Request Body / Form Data:

No Body

Example Response:

```
{"overall":{"attendance_percentage":"100%"}}
```
